DESCRIPTION

This 19th annual conference is intended as a practical overview for pathologists who encounter gastrointestinal and liver specimens in daily practice. Interpretation of biopsies of the upper GI tract mucosa and the liver will be addressed, as well as recent advances in pancreatic and biliary pathology. Case presentations will be featured to emphasize presented concepts. Participants should come away with a better understanding of interpretation of mucosal biopsies, liver biopsies, pancreatic/biliary disorders and the application of modern techniques to gastrointestinal disorders.

WHO SHOULD ATTEND

This activity is intended for community pathologists, gastrointestinal specialists, hepatologists and gastrointestinal and hepatology fellows and residents.

OBJECTIVES

After attending this activity, the participant will be able to:

- Recognize unusual variants of GIST.
- Develop a diagnostic approach to unusual/variant colorectal polyps.
- Identify histopathologic manifestations of infectious diseases in the gastrointestinal tract.

- Describe both common and rare lymphoproliferative disorders that involve the gastrointestinal tract.
- Describe the use of tumor genomic information in colon cancer targeted therapy.
- Identify and discuss the gastrointestinal manifestations of systemic disorders.
- List the differential diagnosis of biliary proliferations in the liver in the intraoperative setting.
- Describe the biomarkers used by oncologist to inform them on patient management.
- Review common mimics of Inflammatory bowel disease.
- Discuss the updated classification of benign and malignant hepatic neoplasm.
- Recognize patterns of inflammation associated with STI of the aerodigestive tract.
- Describe the basis of grading acute cellular rejection.
- Name the four most common types of neoplastic cysts of the pancreas.

ACKNOWLEDGEMENT

Applications for commercial support from health care related industries are pending. A complete list of contributors will be provided in the syllabus. Please note that commercial support received is solely for the educational component of the activity and will not be used to provide food and beverage.

Please note: The Physician Payments Sunshine Act was enacted by Congress to increase public awareness of financial relationships between drug and medical device manufacturers and physicians. In compliance with the requirements of this Act, the commercial supporter/s of this activity may require the Johns Hopkins University School of Medicine to report certain professional information (such as name, address, National Provider Identifier (NPI), and State License number) of physician attendees who receive complimentary food and beverage in conjunction with a CME activity. The commercial supporter is required to submit the collected data to the Centers for Medicare and Medicaid Services which will then publish the data on its website.
