

**Johns Hopkins  
Autoimmunity Day  
Friday, June 5, 2009**

**Morning Session- Patrizio Caturegli, Chair**

<b>8:30am - 9:00am</b>	<b>Continental Breakfast- JHSPH courtyard-W1020</b>
<b>9:00am - 10:00am</b>	<b>Dr. Lawrence Steinman</b> Neurology and Neurological Sciences, Stanford University The Emergence of Antigen Specific Therapy for Organ Specific Autoimmune Disease
<b>10:00am - 10:30am</b>	<b>Dr. Jonathan Powell</b> Oncology, SOM mTOR: Master Regulator of Effector and Regulatory T Cell Lineage Commitment
<b>10:30am - 11:00am</b>	<b>Break - Light Refreshments- JHSPH courtyard-W1020</b>
<b>11:00am - 11:30am</b>	<b>Dr. Daniel Drachman</b> Neurology & Neuroscience, SOM Myasthenia Gravis: What We Know, and What We Wish We Knew
<b>11:30am - 12:00pm</b>	<b>Dr. Kamal Moudgil</b> Microbiology & Immunology, University of MD, SOM The Target Organ Susceptibility in Autoimmune Arthritis
<b>12:00pm - 1:30pm</b>	<b>LUNCH- JHSPH courtyard-W1020</b>

**Afternoon Session- C. Lynne Burek, Chair**

**1:30pm - 2:30pm**

**Dr. George Tsokos**  
Rheumatology, Harvard University  
Immune Cell Signaling and Gene Transcription in Lu-  
pus: Novel Therapeutic Targets and Biomarkers

**2:30pm - 3:00pm**

**Dr. Barbara Wasowska**  
Pathology, SOM  
The Immunoregulatory Effects of IVIg in Autoim-  
mune Diseases and Organ Transplantation in Experi-  
mental and Clinical Models

**3:00pm - 3:30pm**

**Dr. Antony Rosen**  
Rheumatology, SOM  
Autoantigens in Systemic Autoimmunity: Forgotten  
Partner?

Sponsored by Johns Hopkins Center for Autoimmune Disease Research, WHO/PAHO Collaborating Center for Autoimmune Disorders, and American Autoimmune Related Diseases Association.
