

Johns Hopkins Medicine

18th Autoimmunity Day

June 21, 2017

Tilghman Auditorium and Turner Concourse

Johns Hopkins Autoimmunity Day 2017
Wednesday, June 21, 2017
Tilghman auditorium and Turner concourse

Morning Session

Chair:	<i>Daniela Cibakova, MD, PhD.</i> Associate Professor, Department of Pathology, Johns Hopkins University
8:00-9:00 am	Breakfast
9:00-9:15 am	Introduction <i>Noel R. Rose, MD, PhD.</i> Professor Emeritus, Department of Pathology, Johns Hopkins University
9:15-10:15 am	Keynote speaker <i>Marco Colonna, MD.</i> Robert Rock Belliveau MD Endowed Professor, School of Medicine, Washington University “Innate lymphoid cells in immunity”
10:15-10:45 am	<i>Xinzhong Dong, PhD.</i> Professor, The Solomon H. Snyder Department of Neuroscience, School of Medicine, Johns Hopkins University “Characterization of mast cell specific receptor in diseases”
10:45-11:00 am	Abstract Winner – Basic Science
11:00-11:30 am	<i>Pierre A. Coulombe, PhD.</i> EV McCollum Professor and Chair, Department of Biochemistry and Molecular Biology, Johns Hopkins Bloomberg School of Public Health “A novel role for Autoimmune Regulator in skin tumorigenesis”
11:30 – 1:00 pm	Lunch and poster session (Turner Concourse)

Afternoon Session

Chair:	<i>Ben Larman, PhD.</i> Assistant Professor, Department of Pathology, School of Medicine, John Hopkins University
1:00- 1:15pm	Keynote speaker <i>Rachel Caspi, PhD.</i> Senior Investigator, Immunoregulation Section, National Eye Institute, National Institutes of Health “Microbiota and the eye”
1:15 -1:30pm	Abstract Winner – Clinical Science
1:30 -1:40pm	Afternoon break
1:40 – 2:10pm	<i>Peter Arthur Calabresi, MD.</i> Professor, Department of Neurology, School of Medicine, John Hopkins University and Director of the Multiple Sclerosis Center, Johns Hopkins University “Th17 cells inhibit Endrogenous Remyelination in the Central Nervous System”
2:10 – 2:40pm	<i>Cindy L Sears, MD.</i> Professor, Department of Medicine, School of Medicine, Johns Hopkins University “Colon Cancer: The Host and the Microbiota”
2:40 – 3: 00 pm	Awards for Abstracts winners and Meeting conclusions <i>Mario Caturegli, MD, MPH.</i> Associate Professor, Department of Pathology, School of Medicine, John Hopkins University and Director of Noel and Deborah Rose Center for Autoimmune Disease Research

Autoimmunity Day is mainly sponsored by the Deborah and Noel Rose Center for Autoimmune Disease Research, Johns Hopkins Medicine, housed in the departments of Pathology (School of Medicine) and Molecular Microbiology and Immunology (School of Public Health). Additional sponsorship comes from the American Autoimmune Related Disease Association. We are also grateful to MyMD Inc., Mileteny Biotech, eBioscience, Inova Diagnostics, and Euroimmune for supporting the poster session and awards.

There is no registration fee for this meeting. However, we ask you to register in order to have a free lunch. For more information, please contact Ms. Monica Talor at mtalor@jhmi.edu.
